

Installation Instructions for Grey Gecko Press eBooks

For iPad/iPhone users only: Ensure you have installed the app for your preferred format. Then, open the download email you were sent on your iPad/iPhone and click the link. You will be given the option to open the file in the app you have chosen.

1. Click the link in the email you were sent. This will download either a Kindle or ePub file, depending on which you purchased (you'll have a link for both if you purchased a print edition). If you've received an "ebook card" with a simple link, you'll be downloading a compressed zip file. In this case, you'll need to unzip the file before loading your book onto your reader. For more information on how to unzip files using Windows 7, visit this site:

<http://windows.microsoft.com/en-US/windows7/Compress-and-uncompress-files-zip-files>

2. Using Windows Explorer, navigate to the directory in which you downloaded the file you want to load on your reader. The Kindle version is the file with the .prc extension after the book's name. The ePub version is used for every other reader (Nook, Kobo, etc).
3. Connect your Kindle, Nook, Kobo, or eReader device to your computer using the USB cable included with the device. A window will appear on your desktop; choose "Explore this device." For iPad/iPhone users, please start iTunes, if it doesn't start automatically.
4. Copy the necessary files from the folder created in Step 1 to the "Documents" (Kindle), "My Books" (Nook) or similar folder of your eReader device in the window opened in Step 2. NOTE: For Kindle, copy the file with the .prc extension. For all other ereaders, you should copy the .epub file.
5. Eject your eReader device by left-clicking once on the Safely Remove Hardware icon in your computer's task tray (near the clock at the bottom right of the screen), then clicking once on the name of your ereader device. NOTE: DO NOT SKIP THIS STEP.
6. Disconnect your eReader and enjoy the book!

Please note: It is currently not possible for Grey Gecko Press to email/download our books directly to your Kindle or other reader if you purchased them directly from us. Also, your books will not synchronize between devices automatically. This is a deliberate limitation of the devices, designed to limit the use of independent books and those bought directly from the publishers.

Please contact support@greygeckopress.com if you have any questions.
